The roads in the Central Virginia are not designed for cycling. Among other concerns, many of the roads have little to no shoulder, high speed limits, and blind turns. The fact that a road is included on this cue sheet does not mean that the road is considered safe for cycling. Always exercise extreme care when cycling on Central Virginia roads.

Do not look at this cue sheet or map while riding. It is not safe to take your eyes off the road, even for a second. Always come to a complete stop first.

 Note: To add ~4.5 miles to the total ride mileage, make a left on King William (Rt 30) & follow the Dabney's Mile 24 mile option.

Adding this to the Edgar 24 mile route will give a total of 29 miles. Adding this to the Edgar 32 mile route will give a total of 36 miles.
