62.2	END		Walkerton Bridge	

Important Notes:

1. The roads in the Central Virginia are not designed for cycling. Among other concerns, many of the roads have little to no shoulder, high speed limits, and blind turns. The fact that a road is included on this cue sheet does not mean that the road is considered safe for cycling. Always exercise extreme care when cycling on central Virginia roads.

2. Do not look at this cue sheet or map while riding. It is not safe to take your eyes off the road, even for a second. Always come to a complete stop first.

Urbanna Crab Cake Ride - Southern Route

Urbanna Crab Cake Ride - Southern Route

Route Description

This route is an out and back from Walkerton to Urbanna on scenic county roads with light traffic. The terrain is relatively flat, although there are a few hills. The route crosses over several wooden bridges, which are quite bumpy. It is a good idea to slow down as you approach the bridges and proceed with caution over them. The cue sheet includes a lunch stop at Angelo's Colonial Pizza overlooking Urbanna Harbor. However, there are numerous other lunch options in and around Urbanna.

Note: There are two Urbanna Crab Cake Routes - a northern route and a southern route. This cue sheet is for the southern route. Although the total mileage is close to the same for both routes, the southern route stays closer to the river and avoids most of Route 14 ("The Trail"). Consequently, the southern route generally encounters a little less traffic. The southern route also avoids a couple of big hills on Route 14.
